

Press Release – Milan, May 2015

Dates: 17-21 August 2015

2015 Venue: GlogauAir – Kreuzberg, Berlin

Photo-Berlin is a photographic project curating an on-going contemporary documentation of Berlin through advanced level workshops led by international award-winning documentary photographers.

**Photo-Berlin is back with a Summer 2015 edition held by professional women photographers and experts in the field**

The idea of creating a women-only edition was born from two Italian photojournalism addicted girls, Linda Ferrari and Chiara Luxardo.

While organizing the 7 months Masterclass in collaboration with Stefano De Luigi, member of VII Photo Agency, they realized surprisingly that women participants made up two-thirds of a high level photography course. A current underrepresentation in a male-dominated field led to an expressed desire by the participants to have more women references.

The 2015 edition of Photo-Berlin will therefore organize:

**5 Workshops in 5 days with 5 amazing women**

*Laura Boushnak, Kuwaiti-born Palestinian photographer*

*Laura Pannack, British photographer*

*Alisa Resnik, Russian artist*

*Barbara Stauss, Swiss photo-editor*

*Mila Teshaieva, Ukrainian documentary photographer*
